DETAILED ACTION

Applicant's responses, on April 12, 2006 and May 30, 2006, to the First Action on the Merits of this case mailed January 12, 2006, is acknowledged. It is acknowledged that applicants have cancelled Claims 30-38 and amended Claims 17, 18, 26, 39, 41, 42, and 45. Claims 15-20, 26-28, and 30-47 are pending and are hereby reconsidered.

Specification- Objections

The specification, for example pages 12-15, discloses sequences that are not identified by a sequence identifier number (SEQ ID NO:). The sequence rules embrace all nucleotide sequences with ten or more bases and all amino acid sequences with four or more amino acids. Said sequences must be disclosed in a sequence listing and identified by a specific SEQ ID NO: (MPEP 2421.02). 37 CFR 1.821(d) requires the use of the assigned sequence identifier number in all instances where the description or claims of a patent application discuss sequences, regardless of whether a given sequence is also embedded in the text of the description or claims of an application. Applicant is required to check the complete specification and correct pages therein to identify all of the sequences disclosed therein by sequence identifier numbers.

Closing

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire TWO MONTHS from the mailing date of this letter.

To insure that each document is properly filed in the electronic file wrapper, it is requested that each of amendments to the specification, amendments to the sequence listing,
